Standard Mechanical Notes:
This drawing shall not be used as a construction installation drawing.
Routed and areas have been allocated to this service, locations are indicated by these.
To prepare the construction installation drawing, the (sub) contractor shall adhere to this co-ordination principle and shall inspect all the architectural drawings, including structural, and other services design drawings pertaining to the works. The (sub) contractor shall accept full responsibility for the correct interpretation of all other services and ensure that in fixing his/her work it shall not obstruct the flow of future maintenance or other services.
The (sub) contractor shall be responsible for the correct field dimensions, clearances and heights, quantities, fabrication processes and techniques of construction co-ordination of his/her work with that of all other trades, providing all devices necessary for safe and satisfactory operation.

- Legend:**
- HVAC:**
- Ceiling Diff. Valve
 - Ceiling Grille
 - Ceiling Grille 45°
 - Ceiling Sweep Fan
 - Axial Fan
 - Podround Sound Attenuator
 - Tube Fan

- Electrical:**
- Sensor / Setpoint adjuster at 1000 AFPL, 0.00mm control channel and with draw wire by electrical subcontractor
 - Single phase electrical load by electrical sub-contractor
 - Three phase electrical load by electrical sub-contractor
 - 24 Volt Fire Signal to fire Damper
 - Equipment Electrical load in kW

- Plumber:**
- Drain Point at floor level by plumber
 - Full bore drain point by plumber
 - Drain point BELOW ceiling by plumber
 - Drain point ABOVE ceiling by plumber
 - Drain point ABOVE ceiling by plumber
